*FEATURING DUAL-MODE WIRELESS, A CHARGING DOCK AND ADVANCED CUSTOMISATION
VIA A DEDICATED APP*

Assets available [here](#)

Lesquin – March 4, 2025 – NACON, a leader in premium gaming accessories and parent of the RIG audio brand, is excited to announce the arrival of the RIG 900 MAX HS, officially licensed for PlayStation®5 console. Featuring best-in-class low-latency 2.4GHz wireless and Bluetooth 5.2 and paired with a seamless charging base, the 900 MAX HS allows you to game wirelessly across all your favourite devices.

The 900 MAX HS also excels in audio performance, producing accurate audio via 40mm base-boosted, high-sensitivity drivers that provide more volume with less distortion. The advanced acoustic chamber design improves listening quality while reducing audio fatigue, making it a perfect choice for all-day gaming. In addition, it boasts a chat-optimized omni-directional microphone paired with noise rejection technology. The integrated flip-to-mute function further enhances versatility, allowing gamers to take calls and communicate with their squad seamlessly.

“The 900 MAX has been one of our best-reviewed headsets, earning widespread acclaim from critics and players alike,” said RIG Head of Brand, Jack Reynolds *“We’re excited to bring one of our finest headsets to PlayStation® 5 console, giving gamers comfort, performance, and versatility.”*

###

DUAL-MODE WIRELESS

Command your audio with the versatility of dual-mode wireless on the 900 MAX HS. Low-latency 2.4GHz connection via a base station or wireless USB adapter gives you a competitive edge, while Bluetooth 5.2 connectivity allows you to game on the go. Cycle between Game, Bluetooth, or Dual-Mode, ensuring no interruptions when you are in the zone.

PREMIUM COMFORT

Engineered with reinforced steel, the 900 MAX HS showcases a lightweight headband, ensuring durability even during intense gaming sessions. Weighing in at just 290 grams, this ultralightweight headset boasts SNAP-FIT earcups with breathable fabric and a sling headband, providing unmatched comfort for all-day gaming.

MARATHON GAMING

Never run out of battery mid-game with 50-hour battery life on a 2.4GHz connection and up to 60 hours using Bluetooth. Then, dock the headset and recharge via the base station, ready to go for your next session.

WIRELESS GAMING ON STEROIDS

Officially licensed for PlayStation® 5, the 900 MAX HS, extends compatibility to PlayStation® 5 console and PC* through its USB-A 2.4GHz wireless adapter. With dual-mode functionality, you can also enjoy Bluetooth connectivity for mobile phones and portable gaming devices. Amplify your mobile gaming experience by pairing it with a Nacon MG-X or MG-X PRO controller.

ENHANCED GAME AUDIO

Powered by high-sensitivity 40mm audio drivers with enhanced bass and a precisely tuned acoustic chamber, the 900 MAX HS is designed to produce accurate audio without fatigue. Experience the advantage and immersion of enhanced game audio.

WIRELESS GAMING COMPANION

Bluetooth connectivity unlocks access to the 900 MAX Navigator app on iOS and Android devices. Pairing your headset with a mobile device unlocks advanced customisation to personalize your audio experience further. Select pre-set equaliser options for different game genres and music, or completely customise them yourself, adjust mic sensitivity or monitoring levels, and test headset functionality.

CRYSTAL CLEAR CHAT. INSTANT MUTE.

Using an omni-directional microphone paired with noise rejection technology, the 900 MAX HS provides crystal clear voice pickup in all gaming environments. Flip-to-mute functionality instantly mutes your voice without needing to interrupt your game.

RIG 900 MAX HS features:

- Universal gaming headset officially licensed for PlayStation® and compatible with PC via USB-A wireless adapter.
- Dual-mode wireless offers 2.4GHz wireless and Bluetooth 5.2 connectivity.
